Joseph C. Barbaccia, MD, Estrella B. Manio, RN, and Samuel J. Wycoff, DMD, will be presented with the Chancellor's Award for Public Service during ceremonies on Tuesday, April 5, in the Millberry Union gym at 2 p.m.

Barbaccia, professor and vice chair of Family and Community Medicine and director of Health Services Research, is cited "in recognition of his creative leadership in the planning, development and implementation of health education and services for the aged, the chronically ill and the disabled of our community."

Manio, who is a full-time nurse educator with Nursing Services in the Division of Education and Research, is recognized "for her unselfish and untiring efforts by voluntarily providing continuing education programs to prepare Filipino nurses for certification purposes and for serving as an effective cross-cultural role model for all nurses."

Wycoff, professor and chair of the Division of General Dentistry, School of Dentistry, is cited "for his ongoing commitment to improve the needs of the minority communities, children, students and the elderly through a variety of dental health care programs."

Each recipient will receive $500 and a certificate.

At the same event, the Chancellor will present University Service Award certificates to 95 longtime employees—22 who have been at the University for 25 years and 73 who retired in 1982.

A reception to honor all award winners will follow in the Millberry Union gym.

Reservations are now being accepted for Millberry Union's "MusiCale"— a campus-wide benefit celebrating the 25th anniversary of Millberry Union.

UCSF faculty, staff and students will perform jazz and the classics—as well as—a touch of belly dancing at the MusiCale, Thursday April 14, from 7:30 to 9 p.m. in the Millberry Union gym. They will include Denny Zeitlin, Psychiatry; Edward Green, School of Dentistry; Peter Ostwald, Psychiatry; Douglas Colsson, fourth-year student, Pharmacy; and the "Matrix Band," made up of School of Dentistry students. Belly dancing will be by Habiba from the Millberry Union Recreation Department.

Ephraim Engleman, director of the Rosalind Russell Medical Research Center for Arthritis, will serve as master of ceremonies and musical director.

Preceding the MusiCale, Chancellor Emeritus Francis A. Sooy will dedicate a custom-woven tapestry by Bay Area artist Wendy Heunann in the Millberry Union lounge at 6 p.m. followed by a wine and light buffet reception at 6:30 p.m.

Tickets are $5 for students; $10 non-students, including the wine and buffet reception. For further information call x2571.

NEWS BRIEFS

The Sidney Riegelman Lectureship and the John J. Sampson Visiting Lectureship will both be held on campus the week of April 18.

Gerhard Levy, distinguished professor of Pharmaceutics, State University of New York at Buffalo, is the Sidney Riegelman Lecturer. His schedule includes:

- Monday, April 18: "Nonlinear Drug Distribution in the Body." HSW 302. 4-5 p.m.;
- Wednesday, April 20: "Kinetics of Drug Actions: An Overview from a Clinically Oriented Perspective." HSW 302. 4-5 p.m.;
- Friday, April 22: "Substrate, Co-Substrate and Products of Drug Biotransformation: The Multifaceted Nature of Pharmacokinetics." S 1364. 11 a.m.-noon.

The Riegelman lecture series honors the late professor of Pharmacy and Pharmaceutical Chemistry and associate dean for Research Services, School of Pharmacy, who died in 1981. A member of the UCSF faculty for 11 years, he was recognized as a world authority in pharmacokinetics—the science which studies the absorption, distribution, metabolism and excretion of drugs from the body.

The Sampson Lecturer will be Leon Resenkov, the Frederick H. Rawson Professor of Cardiology at the University of Chicago Pritzker School of Medicine, who will speak on:

- Monday, April 18: "Ventricular Tachycardia—The Diagnosis May be More Difficult, or Easier, Than You Think." Carr Auditorium, SFGH. 2 p.m.;
- Tuesday, April 19: "Myocardial Imaging Using Short Half-Lived Isotopes." VAMC Auditorium. 11:30 a.m.;
- Wednesday, April 20: "The Paradox of the Acutely Ischemic States of the Myocardium." Cole Hall. 10:30 a.m.

The Sampson lecture series, established in 1978, honors the UCSF clinical professor of Medicine and senior physician at Mount Zion Hospital and Medical Center. One of the world's leading cardiologists and past president of the American Heart Association, Sampson has been associated with UCSF for over 50 years.

The Biosafety and Radiation Safety committees have revised their campus guidelines which spell out, among other things, safety procedures and requirements for facility and protocol review. All campus individuals who work with agents that could be biologically hazardous or are radioactive are urged to obtain a copy of the HEPC guidelines from Room C 116, or call x1814.

UC President David Saxon has stated in a memo to the UC Regents and all UC Chancellors the University's position with respect to Public Law 97-252, which prohibits giving financial aid from any Title IV source to students who are required to register for the draft but have not done so. It states in part:

"1) Because this law inappropriately places the University in a position of enforcing a law unrelated to our educational purposes, we shall join with other institutions and educational organizations in efforts to modify or repeal it.

"2) We shall comply with the law and withhold Title IV funds from students affected by Public Law 97-252.

"3) We shall comply with the Federal regulations when they are promulgated. While the regulations are under review, however, we shall attempt to influence their formulation to minimize the burden on the University and its students.

"4) Finally, no student who has complied with Public Law 97-252 will be disadvantaged by any University financial aid policy or practice."

A special "thank-you" event for members of the Obstetrics/Gynecology Research and Education Foundation will be held on Thursday, April 14, at 4 p.m. in HSW 300 with scientific presentations by four faculty from the Department of Obstetrics/Gynecology and Reproductive Sciences:

- "Reproductive Genetics: The Fetus as Patient." Mitchell S. Golbus, MD, professor;
- "Infections of the Reproductive Tract: Sexually Transmitted Disease in a Changing Society." Richard L. Sweet, MD, associate professor and vice chair;
- *"In Vitro* Fertilization: New Hope for the Infertile Couple." Robert H. Glass, MD, professor;
- "The Estrogen and Cancer Dilemma." Pentti K. Siiteri, PhD, professor.

The Foundation, which has a 20-member board of trustees and more than 150 donors, including corporations and foundations, hopes to raise $450,000 for a new Reproductive Genetics Center, and another $100,000 for two fellowships in the reproductive sciences.

The Auxiliary committee members for this special art gallery tour are: Mrs. Hilliard J. Katz, Mrs. Robert Marshall and Mrs. Piero Mustacchi.

UCSF and UC-Berkeley researchers have started a project to attempt to resolve the controversial theory about the relationship between certain foods and behavior in children. The team is looking for children between the ages of 6 and 12 whose parents suspect that food may be implicated in their hyperactivity, tantrums, lack of concentration, fatigue, drowsiness or other behavior problems.

David S. King, PhD, assistant adjunct professor, Psychiatry, is directing the project in collaboration with Sheldon Margen, MD, professor of Public Health and Nutrition, and Dale Ogar, research associate, both at UC-Berkeley.

For further information contact Dale Ogar at 642-8061 or ATSS 8-582-8061.

The Alpha Omega Alpha Lecture and Banquet will be held on Thursday, April 7, at A. Sabella's Restaurant, SF at 7 p.m. Howard Spiro, professor of Medicine at Yale will speak on "Lessons from the Placebo."

Alpha Omega Alpha is the School of Medicine student honor society. Students are elected into AOA at the end of their third year.

For further reservation information contact Lawrence Tierney, MD, x4882.

The remaining Community Health Education Lectures this spring are:

- "Recreational Drugs: Trends in the '80s." Darryl Inaba, assistant clinical professor, School of Pharmacy and director, Drug Detoxification, Rehabilitation and Aftercare Project, Haight-Ashbury Medical Clinic. Wednesday, April 6.
- "Acquired Immune Deficiency Syndrome: Mankind's Latest Plague." Marcus Conant, co-director, UCSF Kaposi's Sarcoma Clinic. Wednesday, May 18.

These public lectures are held in Room HSW 302 from 7:30 to 9 p.m. The series is free and sponsored by the Office of Public Service Programs and the Committee for Arts and Lectures. For further information call x3206 or x2019.

To help relieve the shortage of campus parking spaces, a new vanpool parking area will open on the plaza level of the Ambulatory Care Center on Friday, April 1. This will free spaces for permit holders to park in the area formerly reserved for vans behind the old UC Hospital and also will allow for several additional spaces on the F level of the Millberry Union garage to be converted from permit to public use.

Parking continues to be a problem on campus. Faculty, staff and students are asked to seek alternatives to commuting to campus alone by automobile. The Transportation Office at x1511 can assist in arranging participation in vanpools, car pools and the Marin Bus Club.

A five-part workshop to help parents of early teens (children ages 11 to 13) understand adolescent changes will be held Wednesdays, April 13, 20, 27 and May 4 and 11 from 4:30 to 6 p.m.

The lectures will be given by Marna Cohen, LCSW, senior social worker, and Merion Morrison, social work intern, both from the Adolescent Medicine Unit, and will describe the bodily changes in early adolescence, sexuality, intellectual and emotional development and changes in relation to the family.

For further information contact the Adolescent Medicine Unit at x2184.

The Psychotherapy Center at LPPI is beginning its final 12-week session of help for widowed women who are unable to cope with life without their spouses.

For the past four years, the Center has offered treatment for widows who have been widowed for a period of four months to three years, to help them work through their grief. The program, which is part of a study of different methods for helping widows to cope with bereavement, is under the direction of psychiatrist Charles Marmar, MD. This is the final opportunity for widows to participate in the project.

In addition to attending therapy or mutual-help group sessions, widows will be asked to participate in evaluation interviews before and after the series. Confidentiality will be respected and treatment is free. For further information contact Geri Krasner at x77-513 or 510.

Members of the campus community who will be away a month to a year, and would like to rent their furnished apartment or home to a visiting professor should contact Ginna Bunker at 566-8594.

Also needed are household goods such as dishes, sheets, towels, pots, pans and kitchen utensils, which would be available to loan to visiting foreign scholars. Contact Janet Francis at 566-7022 (until 5/31) or Jan Nyberg 587-7783 (after 6/1), or deliver the goods to the garage at 1356 Third Avenue from 11 a.m. to noon on alternate Tuesdays.

APPOINTMENTS

Kenneth Lem: Appointed assistant dean for external programs, School of Pharmacy. In this newly-created position, he will coordinate all programs reaching outside the School, including the Division of Continuing Education as well as an externship program which places pharmacy students in the university under the preceptorship of practicing pharmacists. The externship is part of the education required of every pharmacy student. Lem has been director of the School's Division of Continuing Education since 1972.

Four sickle cell patients have received $100 scholarships from the Northern California Comprehensive Sickle Cell Center, based at SFGH and affiliated with UCSF.

The scholarship winners are Gwen Smith, age 20, a SF City College student who is planning a career in social work; Stephanie Willis, age 19, also of SF City College, who wants to become a nurse; Helena Sparks, age 32, a recent San Jose City College graduate who will transfer to San Jose State to study communications and public affairs; and Michael Graham, age 32, completing a master's degree in Urban Planning at Fresno State. In addition, Ozella Fuller, age 44, a SF State senior and aspiring textile consultant, received an honorable mention.

Joan Kaluenjz, MSW, is coordinator of the fund, which provides scholarships as an important way to encourage these patients to go on to college and prepare for a profession.

The Department of Urology administrative office has moved from M 553 to U 518. The extension 1611 remains the same; the Urology offices in M 426 and M 466 have the new extensions of 5467 and 5468.
